

威拓超声波设备

威拓—专注塑料焊接

Weituo focus on Plastic Welding

数字大功率超声波焊接机

Digital high-power ultrasonic welding machine

15K4200W

15K3000W

- 1、全系列标配压力触发模式，精密钢型机架，焊接升降及调模升降均采用直线导轨滑块，实时频率自动追踪。
- 2、振幅分阶功能，焊接振幅10%-100%可调（1%精度）。
- 3、200V-240V恒稳输出，振幅补偿，模具阻抗分析+保护、过载保护、电压保护（输入）、换能器电压保护。
- 4、品质管理（时间、能量相互检测），焊接记录（运行统计），设备功率无虚假，4核32位处理器。
- 5、485通讯，功能强大，品质优良，焊接稳定型高。

1. The whole series of standard pressure trigger mode, precision steel frame, welding lifting and die lifting are all using linear guide slide block, real-time frequency automatic tracking.
2. Amplitude adjust function, welding amplitude 10% - 100% adjustable (1% accuracy).
3. 200V-240V constant output, amplitude compensation, mold impedance analysis + protection, overload protection, voltage protection (input), Transducer voltage protection.
4. Quality management (time and energy mutual detection), welding record (operation statistics), equipment power is true and reliable, 4-core 32-bit processor.
5. 485 communication, powerful functions, excellent quality, welding stability is high, machine operation is accurate and reliable.

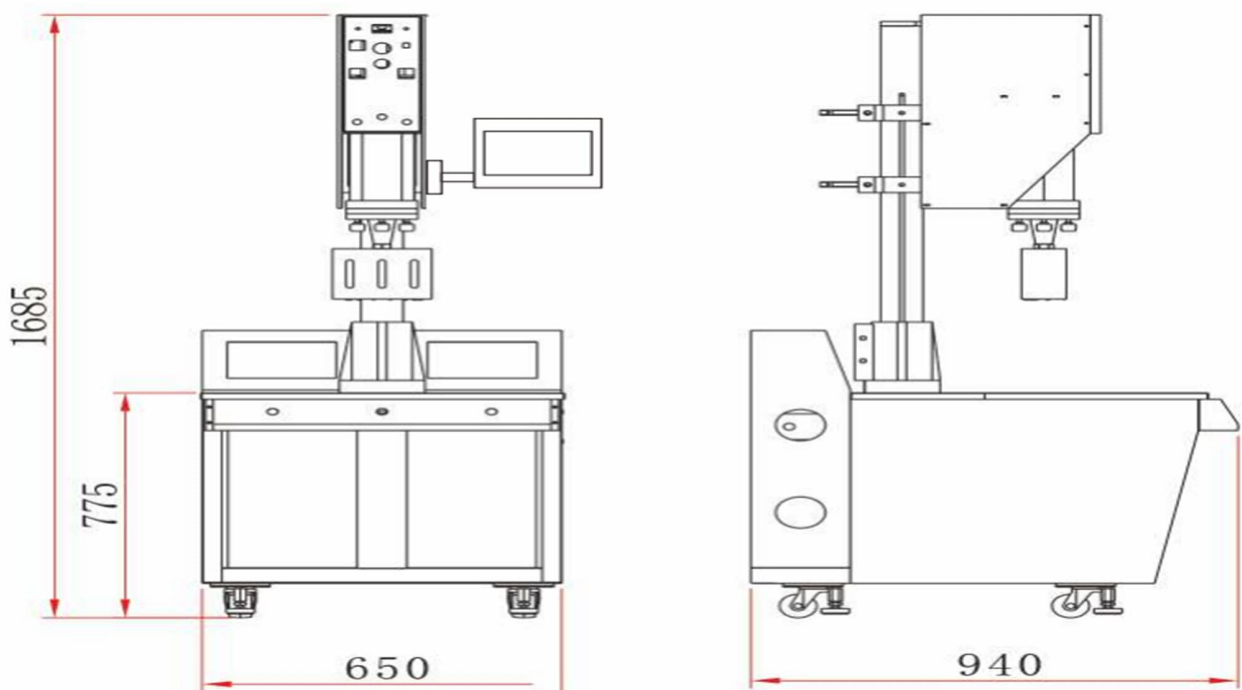

广泛应用于充电器、充电器插头、电源适配器、电子元器件外壳等。

It is widely used in chargers, charger plugs, power adapters, electronic component shells, etc.

规格参数

Specification parameters

频率 / Frequency	15KHz
功率 / Power	3000W 4000W
语言 / Language	中、英 Chinese and English
电源电压 / Voltage	200-240VAC
工作行程 / Work schedule	75/100MM
